

FULFILLMENT, WAREHOUSE, LOGISTICS AND RETAIL

Definitive Technology Group has become the premier supplier of modular battery systems and mobile workstations to drive efficiency within Fulfillment, Warehouse, Logistics, Retail and Medical institutions. Definitive products are proven to drive ROI within 12-months and then provide a long useful life, or we simply wouldn't create them.

Laptop Workstation

w/ Monitor

+ Printer & Bin-Shelf

SHIPPING & RECEIVING

Definitive saved a manufacturer 40-seconds per order by mobilizing S&H equipment resulting in \$50,000 per year in annual savings. This customer will save more than \$250,000 before the batteries even need to be replaced.

POS WORKSTATION

Efficiency within a retail store is critical to sustainability. However, a major retailer lost \$80M/yr due to shopping cart abandonment. When the Definitive POS workstation is deployed, retailers capture more revenue by increasing the speed of checkout.

MEDICAL EHR WORKSTATION

DEFINITIVE-MOBILE EHR WORKSTATION

In hospitals, the medical cart is a major pain point within the operation. Definitive is the first company to provide **“the last mobile EHR workstation that a hospital will ever need to buy”**. Our process saves money and provides and addresses every issue that Clinical, IT and Finance face when dealing with mobile workstations.

Configurable Battery System to precisely match runtime and workflow requirements. Virtually unlimited workstation configurations and options to choose from.

Mounting Options	Single Display of Laptop
Weight Capacity	11 - 22 lbs
Height Adjustment	35.7 - 47.5 in from floor to work surface
Materials	Aluminum alloy / Stainless Steel / ABS (VO)
Lift Mechanism	Gas Spring
Work Surface	21.2(w) x 17.68(d) in with integrated handles
Casters	4" casters, 2 locking
Warranty	3 or 5-years with 10-year fixed cost option

THE DEFINITIVE BATTERY SYSTEM

The first and only battery system that can be configured to meet every workflow. Choose from:

1. 250Wh of internal capacity with an additional 250Wh of On-Demand Power
2. 500Wh of internal capacity that provides 12+ hrs of runtime and recharges in 2-3hrs
3. The only 2-Battery (500Wh) fully Hot-Swappable battery system for 24+ hrs of runtime

NO FIRE / NO FANS

DEFINITIVE-250™ BATTERY

- Chemistry: Lithium-Iron-Phosphate
- Capacity: 250Wh per battery (up to 3 batteries per cart, 750Wh)
- Recharge time: 2-3 hours
- Safety Certifications: UN38.3, IEC62133, UL2054
- Warranty: up to 5-years

DEFINITIVE CONTROLLER

- Universal Input: 85-264VAC 50/60Hz
- Internal Charger: Recharges the *Definitive-250 Battery* in 2-3 hours
- Compatible with any mobile workstation
- Backup Battery: 3-minutes of power during hot-swap
- Fanless Design: No moving parts
- Safety Certifications: UL/IEC 60601-1, CAN/CSA 22.2, and others
- Warranty: 5-Years

DEFINITIVE 2-HOUR Charger

Used in hot-swap applications

- 3 Charge Positions
- Universal input: 85-264V, 50/60Hz
- WiFi enabled for battery fleet management
- Charge Time: 2-3 hours
- Fanless Design: no moving parts, clean, no-maintenance, silent operation
- Safety Certifications: UL/IEC 60601-1, CAN/CSA 22.2, and others
- Warranty: 5-Years
